What error message did you encounter (if any)?

Exception in thread "main" java.lang.Error: Unresolved compilation problem:
	Invalid escape sequence (valid ones are \b \t \n \f \r \" \' \\ )
	at mastery.House.addRoof(House.java:13)
	at mastery.House.main(House.java:7)

.

What unexpected behavior did your program exhibit?
Unresolved compilation problem

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)
I had to put \ instead of \\; \ \ represents the end of a string.

Include a screenshot of specific lines of code.

```
public static void addRoof() {
    System.out.println("    /\ ");
    System.out.println("  /   \ ");
    System.out.println(" /     \ ");
    System.out.println("/_______\");
```

How did you fix the issue?
Added \\ instead of \

Correct lines of code screenshot

```
// Roof method
public static void addRoof() {
    System.out.println("    /\\  ");
    System.out.println("  /   \\ ");
    System.out.println(" /     \\ ");
    System.out.println("/_______\\");
```
