What error message did you encounter (if any)?

Exception in thread "main" java.lang.Error: Unresolved compilation problem:
Type mismatch: cannot convert from int to boolean
at mastery.PerfectIntegers.isPerfect(PerfectIntegers.java:28)
at mastery.PerfectIntegers.main(PerfectIntegers.java:9)

.

What unexpected behavior did your program exhibit?

Cannot convert int to boolean

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

I wrote return sum = number; syntax error

Include a screenshot of specific lines of code.

```
return sum = number;
```

How did you fix the issue?

Added a separate equals sign return ==sum;

Correct lines of code screenshot

```
return sum == number;
```
