Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Investment IPO	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
The user will input nothing; the code starts with \$2500. The target is \$5000.	The computer will check whether 2500 is lower than 500. The computer calculates interest on the principal and adds it back to the principal. The computer also increases the years until its at the target. Then the year is printed	How many years it takes to reach desired amount
