

What error message did you encounter (if any)?

I did not know how to get the remainder or how to use it to progress

What unexpected behavior did your program exhibit?

N/A, I just did not know how to do something

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

N/A, there was no issue; I just didn't know how to get the remainder

Include a screenshot of specific lines of code.

```
int cents = userInput.nextInt();
```

```
int quarters = cents / 25;  
cents %= 25;
```

```
int dimes = cents / 10;  
cents %= 10;
```

```
int nickels = cents / 5;  
cents %= 5;
```

```
int pennies = cents;
```

How did you fix the issue?

Used AI and found out the way to get the remainder was the % symbol

Correct lines of code screenshot

```
cents = cents % 25
```

```
cents = cents % 10
```

```
cents = cents % 5
```
