

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Change Application	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
Ask the user for the amount of change in cents	Scanner library is used to read the amount of cents entered; calculate quarters by dividing by 25, update cents again by using the remainder (%), then update the remaining cents using subtraction, and do the same for dimes, nickels, and the remaining number is pennies.	The screen will display the amount of quarters, dimes, nickels, and pennies.
