Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Pizza Cost Application	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
Ask for the diameter of the pizza in Inches. The user will input the inches	Declare all Variables as "double". Set up the scanner so it can receive inputs. The program asks User for the diameter. The Diameter gets squared and multiplied by 0.05 which is the materials cost, Add up Materials, Rent and Labor Cost as "cost"	The total cost of the Pizza, "Total cost of making the Pizza"
