

What error message did you encounter (if any)?

I did not run into any error messages.

What unexpected behavior did your program exhibit?

None, the skill builders prepared for this one, so it was relatively not that hard for me

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

No issue was caused.

Include a screenshot of specific lines of code.

```
for (int i = 1; i <= t; i++) {  
    sum += i; // Adds the current number to the total sum  
}
```

How did you fix the issue?

I did not need to fix any issues.
